## WORK EXPERIENCE

---

### Accenture

Management Consulting Analyst

New York, NY

Apr 2023 – Present

- Provided strategic guidance and actionable recommendations across financial service, capital market, public sectors, and hospitality industry, enhancing operational streamline efficiency
- Conducted research and analysis to drive process improvement and cost savings method for clients

Selected Project Experience:

- Mega Cap Banking Company:
  - Led project management effort in optimizing the post-trade latency process for US Cash Equity flows. Identified critical gaps in prioritized AITs such as CoreTP, Clearing, GTR, and MICS, impacting trade execution and settlement efficiency.
  - Developed a comprehensive dashboard design to provide real-time visibility into the performance of all mainframe systems involved in the post-trade process, enhancing decision-making improvement to all stakeholders.
- Large Cap Regional Banking Company:
  - Analyzed a comprehensive current-state mapping of ERM processes against a standardized risk taxonomy, providing a clear understanding of the organization's risk management landscape.
  - Conducted the testing and validation of controls to identify pain points and inefficiencies within the client's system, leading to a recommendation for process improvements and control enhancements.
- Mega Cap Banking Company:
  - Managed the transformation of AppHQ platform to streamline the application lifecycle management and data quality processes, resulting in a reduction in development time, improved delivery quality, and UAT testing configure.
  - Implemented a comprehensive data governance framework to ensure workflow accuracy and consistency, fostering stakeholder's leniency in the platform.
- Large Cap Investment Banking Company:
  - Conducted an in-depth peer benchmarking analysis and a comprehensive baseline study for 2nd Line of Defense oversight, focusing on resourcing, processing, and tooling.
  - Developed actionable recommendation report to strengthen the client's Cyber and IT oversight, based on data-driven analysis and industry insights.
- Large Cap Investment Banking Company:
  - Managed the documentation of the current state regulatory reporting processes such as FR Y-9C, FFIEC 031, or FFIEC 009/009a.
  - This involved in analyzing internal systems and data flows, identifying gaps, interviewing stakeholders, and creating comprehensive reports to ensure accurate and efficient regulatory compliance.
- Large Cap Pharmaceutical Company:
  - Collaborated with cross functional team in designing and implementing a proof-of-concept solution to conceptualize GenAI and Intelligent Automation system.
  - Bringing actionable strategies to streamline business processes, delivering integrated Veeva and SAP system for BOM delivery. Conducted a comprehensive spend analysis to identify cost-saving opportunity utilizing excel business modeling.
- Mega Cap Technology Company:
  - Implemented a revamped system process that addressed identified pain points in the Book Management process under the Small Business Group (SBG) team.
  - Initiated a comprehensive documentation process for the existing process flows, providing a clear understanding of pain points in the business. Facilitated the transition for the newly designed system process, enhancing the overall comprehension in the marketing advertisement system.
- Large Cap Travel Company:
  - Assisted the Treasury Lead on solution confirmation and next phase of project transformation. Developed and maintained project planning, reports, and presentations under the phase delivery of SAP S/4 Finance Platform Transformation project.
  - Assisted in streamlining treasury processes using Smartsheet, contributing to increase in RAIDs delivery efficiency. Led contract analysis initiatives, reviewing and negotiating supplier contracts for favorable terms and conditions.
